

# Ice Tower Excavation

## What You Need:

Tall container, toys, water, eye dropper/squirt bottle, salt

## How to Make It:

1. Put toys into the container and fill with water
2. Place container in freezer
3. Remove when frozen
4. Ease the ice block out of the container

## How to Play:

Use squeeze bottles or eye dropper filled with water and salt to melt the ice block and free the toys
